GitHub: amansharmacs1 | LinkedIn: amansharmacs | LeetCode: amansharmacs1

Summary

Computer Science undergraduate with strong foundations in Data Structures & Algorithms, OOP, DBMS, and System Design fundamentals. Hands-on experience building scalable applications using Node.js, Express.js, MongoDB, PostgreSQL, and React. Experienced in designing RESTful APIs, implementing caching strategies, optimizing database queries, and deploying applications on AWS. Interested in high-scale distributed systems, microservices architecture, and performance optimization.

Education

- | | |
|--|----------------|
| • Chitkara University, Himachal Pradesh | 2024 – 2028 |
| B.E. in Computer Science Engineering | CGPA: 9.5 / 10 |

Projects

- | | |
|--|------|
| • WanderStay – Travel Accommodation Platform | 2025 |
| <i>MERN Stack + GitHub Actions</i> | |
| – Built a full-stack travel accommodation platform using MongoDB, Express.js, React, and Node.js with JWT-based authentication and role-based access control. | |
| – Designed RESTful APIs and optimized MongoDB schemas for scalable property listing management. | |
| – Containerized the application using Docker and automated CI/CD workflows via GitHub Actions. | |
| – Deployed backend services on Render, implemented structured validation and error handling, and tested APIs using Postman. | |
| • EDULIFE – AI-Powered Voice Assistant | 2025 |
| <i>Python + Speech Recognition + AI/ML</i> | |
| – Developed an AI-powered voice assistant for student productivity and task automation using Python and speech recognition. | |
| – Implemented voice command processing, workflow automation, and intelligent response handling for daily academic tasks. | |
| – Integrated NLP-based interaction features to improve user communication and accessibility. | |
| – Published a research article explaining the system architecture, AI workflow, and practical implementation. | |
| • AuditAI – AI Spend Optimization Platform | 2026 |
| <i>MERN Stack + Gemini AI</i> | |
| – Built an AI-powered platform to analyze tools like ChatGPT, Claude, Gemini, Cursor, and GitHub Copilot for identifying unnecessary AI spending and optimization opportunities. | |
| – Implemented passwordless email authentication, public shareable audit URLs, PDF export functionality, and user-specific audit history tracking. | |
| – Integrated Gemini AI to generate executive summaries, cost-saving recommendations, and alternative SaaS tool suggestions based on pricing analysis. | |
| – Designed scalable RESTful APIs and optimized MongoDB schemas for efficient audit data management. | |

Technical Skills

Programming Languages: Java (Core, OOP), JavaScript, TypeScript, C, C++
Backend: Node.js, Express.js, RESTful API Design
Databases: MongoDB, MySQL
Frontend: React.js, Tailwind CSS, Bootstrap, Material UI, HTML5, CSS3
Cloud: AWS (EC2 deployment, environment configuration)
Testing: Thunder Client, Postman
Version Control & Tools: Git, GitHub, VS Code
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
System Design (Foundational): API Design, UML, Database Schema Design

Positions of Responsibility

- | | |
|---|----------------|
| • Joint Secretary ISTE Student Chapter, Chitkara University | 2025 – Present |
| Organized technical workshops, managed student engagement activities, and coordinated event operations. | |
| • Campus Ambassador Unstop | 2026 – Present |
| Promoted hackathons, competitions, and career opportunities while building a strong student peer network. | |
